Welcome to Sprint

Sprint built the largest all-digital, all-PCS nationwide network with advanced multimedia services, reaching more than 240 million people for clarity you can see and hear. We built our network to give you what we believe you really want from a wireless phone: clear sound, private conversations, and time-saving features.

But with Sprint, you can do something even more far-reaching: simplify your life. Our advanced technology is designed to grow with your communications needs, so that one day you'll be able to rely entirely on your PCS Phone to stay connected.

This guide will familiarize you with our technology and your new PCS Vision Ready Link Phone through simple, easy-to-follow instructions. If you have already reviewed the Start Here Guide, which was packaged with your new phone, then you're ready to explore the advanced features outlined in this guide.

If you have not read your Start Here Guide, go to Section One - Getting Started. This section provides all the information you need to unlock your phone, set up your voicemail, and much more. It also contains information on how to contact Sprint if you have any questions about your service, wish to check your account balance, or want to purchase additional products or services.

Thank you for choosing Sprint.

Introduction

This User's Guide introduces you to PCS Service and all the features of your new phone. It's divided into four sections:

- ▶ **Section 1:** Getting Started
- ▶ **Section 2:** Understanding Your Phone
- ▶ **Section 3:** Using PCS Service Features
- ▶ **Section 4:** Safety and Warranty Information

Throughout the guide, you'll find tips that highlight special shortcuts and timely reminders to help you make the most of your new phone and service. The Table of Contents and Index will help you locate specific information quickly.

You'll get the most out of your phone if you read each section. However, if you'd like to get right to a specific feature, simply turn to that page. Follow the instructions in that section, and you'll be ready to use your phone in no time.

Tip: You can print this guide to keep on hand or to view it online. If you're viewing it online, simply click on a topic in the Table of Contents or Index or on any page reference. The PDF will automatically display the appropriate page.

Getting Started

Setting Up Service

In This Section

- ▶ **Getting Started With PCS Service**
 - ▶ **Setting Up Voicemail**
 - ▶ **Getting Help**
-

This section walks you through setting up service for your PCS Phone, unlocking your phone, setting up your voicemail, and contacting Sprint for assistance with your PCS Service.

Getting Started With PCS Service

Determine if Your Phone is Already Activated

If you received your phone in the mail or purchased it at a Sprint Store, it probably has already been activated. All you need to do is unlock your phone.

If your phone is not activated, please refer to the Start Here Guide included with your phone.

Unlocking Your Phone

Follow these steps to unlock your phone:

1. Press  to turn the phone on.
2. Select **Unlock** (left softkey).

Note: To select a softkey, press the softkey button directly below the softkey text, which appears at the bottom left and bottom right of your phone's display screen. Softkey actions change according to the screen you're viewing and will not appear if there is no corresponding action available.

3. Enter your four-digit lock code. For security purposes, the code is not visible as you type.

Tip: If you can't recall your lock code, try using the last four digits of either your Social Security number or PCS Phone Number or try 0000. If none of these work, call PCS Customer Solutions at 1-888-211-4PCS (4727).

Setting Up Your Voicemail

All unanswered calls to your PCS Phone are automatically transferred to voicemail, even if your phone is in use or turned off. Therefore, you will want to set up your voicemail and personal greeting as soon as your PCS Phone is activated.

To set up voicemail:

1. Press and hold  1.
2. Follow the system prompts to create your passcode, record your greeting, record your name announcement, and choose whether to activate One-Touch Message Access (a feature that lets you access messages simply by pressing and holding , bypassing the need for you to enter your passcode).

Note: The voicemail setup process may vary in certain Affiliate areas.

For more information about using your voicemail, see “Using Voicemail” on page 166.

Features of Your PCS Vision Video Phone VM4500 by Sanyo

Congratulations on the purchase of your PCS Vision Video Phone VM4500 by Sanyo. This phone is easy to use and reliable. It also offers many significant features and service options:

- ▶ Dual-band/tri-mode capability provides access to other PCS Digital and Analog Networks where Sprint has implemented roaming agreements (page 77).
- ▶ PCS Vision™ provides access to the wireless Internet in digital mode (page 176).
- ▶ PCS Mail provides quick and convenient text messaging capabilities (page 192).
- ▶ PCS Voice Command™ lets you dial phone numbers by speaking someone's name or the digits in their phone number (page 211).
- ▶ Downloadable ringers, screen savers (images), games, and more allow you to turn down time into fun time and to personalize your phone (page 196).
- ▶ Speed Dialing lets you call a phone number stored in your Contacts directory using one touch dialing (page 26).
- ▶ The Contacts directory can store up to 300 names, 500 phone numbers, 300 email addresses, and 300 Web addresses. Each entry can contain up to 7 phone numbers, 1 email address, 1 Web address, a ringer, and an image (Section 2G).
- ▶ Your built-in camera gives you the ability to take full-color digital pictures and videos. You can instantly share them with your family and friends (page 133).
- ▶ PCS Ready Link allows you to connect with your friends, family, and co-workers with just one push of a button. This feature provides a range of solutions to meet your communications needs (page 27).
- ▶ Wide 2.1-inch, full-color display screen plus external display.
- ▶ The Side Call key lets you place or receive calls without opening the phone.
- ▶ The Sub LCD allows you to monitor the phone's status and to see who's calling without opening the phone.
- ▶ The Flip options allow you to answer an incoming call by opening the flip or end a call by closing the flip.

Turning Your Phone ON and OFF

Turning Your Phone On

- Press  to turn your phone on.

Once your phone is On, it displays “Looking for service...” which indicates that your phone is searching for a signal. When your phone finds a signal, it automatically enters standby mode – the phone’s idle state. At this point, you are ready to begin making and receiving calls.

If your phone is unable to find a signal after 15 minutes of searching, a Power Save feature is automatically activated. When a signal is found, your phone automatically returns to standby mode.

In Power Save mode, your phone searches for a signal periodically without your intervention. You can also initiate a search for PCS Service by pressing any key (when your phone is turned On).

Tip: The Power Save feature helps to conserve your battery power when you are in an area where there is no signal.

Turning Your Phone Off

- Press  for two seconds until you see the powering down animation on the display screen.

Your screen remains blank while your phone is off (unless the battery is charging).

Using Your Phone's Battery

Battery Capacity

Your PCS Phone is equipped with a Lithium Ion (LiIon) battery. It allows you to recharge your battery before it is fully drained. The battery provides approximately 3.25 hours of continuous digital talk time (1.7 hours in analog) or approximately 240 hours of continuous digital standby time (23 hours in analog).

When the battery reaches 5% of its capacity, the battery icon blinks. When there are approximately five minutes of talk time left, the phone sounds an audible alert and then powers down.

Note: Long backlight settings, searching for service, vibrate mode, PCS Ready Link mode, and browser use affect the battery's talk and standby times.

Tip: Be sure to watch your phone's battery level indicator and charge the battery before it runs out of power.

Installing the Battery

Your PCS Phone comes with a LiIon battery. Follow these steps to install it:

1. Place the battery into the space beneath the antenna with the metal contacts at the bottom, facing downward.
2. Gently press down until it's in place and the battery release latch snaps.

Removing the Battery

To remove your battery, follow these easy steps:

1. Make sure the power is off so that you don't lose any stored numbers or messages.
2. Push the battery release latch up and hold the battery.
3. Pull the battery up and out at a 45-degree angle.

Charging the Battery

Your PCS Phone comes with a rechargeable battery. You should charge the battery as soon as possible so you can begin using your phone.

Keeping track of your battery's charge is important. If your battery level becomes too low, your phone automatically turns off and you will lose all the information you were just working on. For a quick check of your phone's battery level, glance at the battery charge indicator located in the upper-right corner of your phone's display screen. If the battery charge is getting too low, the battery icon  blinks and the phone sounds a warning tone.

Always use a Sprint-approved desktop charger, travel charger, or vehicle power adapter to charge your battery.

Warning! Using the wrong battery charger could cause damage to your phone and void the warranty.

Using the Travel Charger

To use the travel charger provided with your phone:

1. Plug the travel charger into a wall outlet.
2. Plug the other end of the travel charger into the bottom of your phone (with the battery installed).
 - **Charging when your phone is turned on:**
The battery icon  appears on the display while charging. The battery icon turns to  when charging is complete.
 - **Charging when your phone is turned off:**
The battery icon  appears, and the message "BATTERY CHARGING-Power Off-" is shown on the display while charging. When the battery is completely discharged, you may wait for several minutes until the message is shown on the display. The battery icon turns to , and the message changes to "CHARGING COMPLETE-Power Off-" when charging is complete.

It takes approximately 3.5 hours to fully recharge a completely rundown battery. With the Sprint-approved Lilon battery, you can recharge the battery before it becomes completely run down.

Displaying Your Phone Number

Just in case you forget your phone number, your PCS Phone can remind you.

To display your phone number:

1. Press **MENU OK** to access the main menu.
2. Select **Contacts** and press **MENU OK**.
3. Select **My Phone#** and press **MENU OK**.

Note: To access the phone's main menu, press **MENU OK** from standby mode. Menu items may be selected by highlighting them with the Navigation key and pressing **MENU OK**.

Making and Answering Calls

Making Calls

In addition to dialing directly, your PCS Phone offers many different ways to make calls, including PCS Voice Command™ (page 211), Speed Dialing (page 26), and using Call History (page 85).

To dial a call with the Flip Open:

1. Make sure your phone is on.
2. Enter a phone number. (If you make a mistake while dialing, press **BACK** to erase one digit at a time. Press and hold **BACK** to erase the entire number.)
3. Press **TALK** or **SPEAKER**. (To make a call when you are roaming and Call Guard is enabled, see “Call Guard” on page 80.)
4. When you're finished, press **END / Ø**.

Tip: To redial your last outgoing call, press **TALK** or **SPEAKER** twice.

Tip: When making calls off the Sprint Nationwide PCS Network, always dial using 11 digits (1 + area code + phone number).

Important: To maximize performance when using your PCS Phone, extend the antenna before a call and do not touch the antenna during a call (see page 217).

To place a call with the Flip Closed:

1. Make sure your phone is on.
2. Press and hold the Side Call key (●||) on the right side of the phone. (You will see a message on the Sub LCD.)
3. Follow the system prompts. (The call will be made in speakerphone mode, unless you have a headset attached to the phone.)
 - **Redial** to redial the last number you called.
 - **Voice Dial** to use the Voice Dial function (see “Using Voice-Activated Dialing” on page 125).
4. When you're finished, press and hold (●||).

Note: To use a Voice Dial, you must have stored Voice Dial entries (see “Programming Voice Dial Tags” on page 125).

Answering Calls

To answer a call with the Flip Open:

1. Make sure your phone is on. (If your phone is off, incoming calls go to voicemail.)
2. Press **TALK** or **SPEAKER** to answer an incoming call. (Depending on your phone's settings, you may also answer incoming calls by pressing any digit.)

To answer a call with the Flip Closed:

1. Make sure your phone is on. (If your phone is off, incoming calls go to voicemail.)
 2. When your phone rings or vibrates, press and hold the Side Call key () on the right side of the phone. (The Call will be answered in speakerphone mode.)
- or -
- Open the phone to use the earpiece.

Saving a Phone Number

Your PCS Phone can store a total of 500 phone numbers in 300 Contacts entries. Each entry can store up to seven phone numbers and the entry’s name can contain 16 characters. Your phone automatically sorts the Contacts entries alphabetically.

To save a number from standby mode:

1. Enter a phone number.
2. Press **MENU OK**.
3. Highlight **Save Phone#** and press **MENU OK**.
4. Select a label by highlighting **Home**, **Work**, **Mobile**, **Pager**, **Data**, **Fax**, or **No Label** and press **MENU OK**.
5. Enter a name and press **MENU OK**.

If you have already stored entries in the Contacts list, you are prompted to select the following entry modes:

- **New Name** to enter a name directly.
- **From Ph. Book** to select a name from the Contacts entry list.

6. Press **Save** (left softkey).

After you have saved the number, the new Contacts entry is displayed. (See “Contacts List Entry Options” on page 90.)

Finding a Phone Number

You can search Contacts entries for phone numbers that contain a specific string of numbers.

To find a phone number:

1. Enter the last four or more digits of the number and press **MENU OK**.
The more numbers you enter, the more specific the search becomes.
2. Highlight **Find** and press **MENU OK**.
3. The Contacts entry that ends with the digits you entered appears.
4. Highlight your desired entry.
 - Press **MENU OK** to display the entry details.
 - Press **TALK** or **SPEAKER** to dial.

Dialing and Saving Phone Numbers With Pauses

You can dial or save phone numbers with pauses for use with automated systems, such as voicemail or credit card billing numbers. If you select a hard pause, the next set of numbers are sent when you press **TALK**. If you select a 2-second pause, your phone automatically sends the next set of numbers after two seconds.

Note: You can have multiple pauses in a phone number and combine 2-second and hard pauses.

To dial or save phone numbers with pauses:

1. Enter a phone number and press **MENU OK**.
2. Highlight either **Hard Pause** or **2-Sec. Pause** and press **MENU OK**.
(Hard pause is displayed as a “H” and 2-second pause as a “T”.)
3. Enter additional numbers.
4. To dial the number, press **TALK** or **SPEAKER**. (When dialing a number with a hard pause, press **TALK** to send the next set of numbers.)
– or –

To save the number in your Contacts list, press **MENU OK**, highlight **Save Phone#**, and press **MENU OK**.

Abbreviated Dialing

When you enter four digits of a phone number, the screen displays “Abbrev. Dial.” Your phone dials the phone number in your Contacts list that ends with the four digits you entered.

To make a call using Abbreviated Dialing:

1. Enter the last four digits of a Contacts entry’s phone number.
2. Press **MENU OK** to display the dialing options.
3. Highlight **Abbrev. Dial** and press **MENU OK**, **TALK**, or **SPEAKER**.

Note: If there are more than two matched numbers in your Contacts list, the number that comes first alphabetically will be dialed. If there is no matched number, your phone dials the number you set for abbreviated dial with the last 4-digits you entered. See page 65 to set this feature.

Dialing From the Contacts Directory

To dial directly from a Contacts entry:

1. Press **MENU OK** to access the main menu.
2. Select **Contacts** and press **MENU OK**.
3. Select **Find/Add Entry** and press **MENU OK**.

Shortcut: Press **►** on the Navigation key to list entries.

The display confirms that the number has been dialed when it shows “R-Link calling...”.

Using PCS Ready Link

PCS Ready Link allows you to connect with your friends, family and co-workers with just one push of a button. You can make 1-to-1 or 1-to-many calls instantly like a two-way radio. This feature provides a range of solutions to meet your communications needs. You can make and receive PCS Ready Link calls when your phone displays .

Preparing Your Phone for PCS Ready Link Service

The first time you use your PCS Vision Ready Link Phone, your phone must identify itself and make itself available to the Ready Link network.

1. When you activate PCS Ready Link for the first time, you will be prompted to activate Ready Link service. Press **OK** (left softkey) to activate. (You will see “**Preparing Ready Link service... Please wait.**”)
2. Press **R-Link** (left softkey) or the Ready Link button on the side of your phone (). (The PCS Ready Link Help message will appear.)
3. Press **Yes** (left softkey) to read a brief introduction to PCS Ready Link, and press **Next** (left softkey) to continue through the tutorial.

Your phone is now ready to make and receive PCS Ready Link calls.

Setting PCS Ready Link Mode

To change the current mode, follow these steps:

1. Press  to access the main menu.
2. Select **Settings** and press .
3. Select **Ready Link** and press .
4. Select **Enable/Disable** and press .
5. Select **Enable** and press . (The default setting is Disable.)
 - **Enable:** Lets you make or receive PCS Ready Link calls any time your phone is not in use.
 - **Disable:** Disables your phone's PCS Ready Link service; you will not be able to make or receive PCS Ready Link calls or access your Ready Link contacts.

Ready Link Call Alerts

There are several ways your PCS Phone alerts you during PCS Ready Link calls.

When you make or receive a PCS Ready Link call:

- ▶ The phone beeps.
- ▶ The backlight illuminates.
- ▶ The screen displays a PCS Ready Link call message.
- ▶ The other party's PCS Ready Link number and name (if available) are displayed.
- ▶ The screen displays who has the floor.

The status of a PCS Ready Link call:

- ▶ The Green LED On indicates you have the floor and may speak.
- ▶ The Red LED On indicates another contact has the floor.
- ▶ The LED Off indicates the floor is open. (You can take the floor and speak by pressing and holding )

Displaying the PCS Ready Link List

- From standby mode, press **R-Link** (left softkey) or the Ready Link button on the side of your phone () to access the PCS Ready Link List.

Selecting Contact Lists

When your phone displays a PCS Ready Link List, the left softkey is labeled **Go to**. To switch to another contact list, press **Go to** (left softkey), highlight your desired list and press .

- **Company List/Co. Groups** contain company-provided contacts (up to 200 entries). Your company list can only be created and modified by an authorized administrator on the PCS Ready Link server. You cannot add, edit, or delete Company List items, but you can copy entries to your Personal List/Per. Groups.
- **Personal List/Per. Groups** contain your personal Ready Link contact names and numbers, separately or in groups. You can create and edit your own Personal List. Your phone can store a total of 200 entries (you may include up to five contacts per group).
- **Outgoing Calls** shows the last 10 different PCS Ready Link calls you placed.

- **Incoming Calls** shows the last 10 different PCS Ready Link calls you accepted.
- **Missed Calls** shows the last 10 PCS Ready Link calls you missed.

Tip: You can also select **Enter R-Link#** from **Go to** option to enter a PCS Ready Link number directly. See page 31 for details.

Note: The  icon next to the group name indicates a group.

Making a PCS Ready Link Call (1-to-1 Call)

TTY Use With PCS Service From Sprint

A TTY (also known as a TDD or Text Telephone), is a telecommunications device that allows people who are deaf or hard of hearing, or who have speech or language disabilities, to communicate by telephone.

Your phone is compatible with select TTY devices. Please check with the manufacturer of your TTY device to ensure that it supports digital wireless transmission. Your phone and TTY device will connect via a special cable that plugs into your phone's headset jack. If this cable was not provided with your TTY device, contact your TTY device manufacturer to purchase the connector cable.

When establishing your PCS Service, please call PCS Customer Solutions via the state Telecommunications Relay Service (TRS) by first dialing **7 1 1 TALK**. Then provide the state TRS with this number: 866-727-4889.

To turn TTY Mode On or Off:

1. Press **MENU OK** to access the main menu.
2. Select **Settings** and press **MENU OK**.
3. Select **Others** and press **MENU OK**.
4. Select **TTY** and press **MENU OK**.
5. You will see a message on the display. Press **OK** (left softkey) to continue.
6. Select **Enable** or **Disable** and press **MENU OK**.

Note: When you connect TTY devices, your phone will display  in TTY mode.

Note: If TTY mode is enabled, the audio quality of non-TTY devices connected to the headset jack may be impaired.

IMPORTANT NOTICE: 911 Emergency Calling

Sprint recommends that TTY users make Emergency calls by other means including Telecommunications Relay Services (TRS), analog cellular, and landline communications. Wireless TTY calls to 911 may be corrupted when received by public safety answering points (PSAPs) rendering some communications unintelligible. The problem encountered appears related to TTY equipment or software used by PSAPs. This matter has been brought to the attention of the FCC, and the wireless industry and PSAP community are currently working to resolve this.

 - To deactivate this feature, select **Off** during step 5 above.

Note: This feature does not apply when the flip is open.

Setting Speed Dialing

With this feature you can dial Contacts Directory entries with one key press for locations 2-9. Save your memory locations 2-9 for speed dialing your most commonly used phone numbers. Speed Dial numbers must be stored in your Contacts to use this feature.

To set Speed Dial:

1. Press **MENU OK** to access the main menu.
 2. Select **Contacts** and press **MENU OK**.
 3. Select **Speed Dial #s** and press **MENU OK**.
 4. To select a corresponding speed dial number from 2-9, highlight an unassigned number and press **MENU OK**.
 5. Select an entry from the list and press **MENU OK**.
 6. Select the phone number you want to set as a speed dial and press **MENU OK**.
- or -
1. Press **►** on the Navigation key.
 2. Highlight your desired entry by scrolling through the Contacts list and press **MENU OK**.
 3. Highlight the phone number you want to set as a speed dial and press **Options** (right softkey).
 4. Highlight **Set Speed Dial** and press **MENU OK**.
 5. Highlight an unassigned number and press **MENU OK**.
 - When you highlight an assigned number and press **MENU OK**, you'll be asked whether you want to overwrite the assigned number. Select **Yes** to overwrite or **No** to cancel.

To cancel a stored speed dial number:

1. Press **MENU OK** to access the main menu.
2. Select **Contacts** and press **MENU OK**.
3. Select **Speed Dial #s** and press **MENU OK**.
4. Highlight the stored speed dial number you want to cancel and press **MENU OK**.
5. Highlight **Unassign** and press **MENU OK**.

To use Speed Dial:

- From standby mode, just press and hold the appropriate key.

Setting Abbreviated Dialing

Abbreviated Dialing is another form of speed dialing. It allows you to dial a number by entering just the last four digits of any number in your Contacts Directory. If the last four digits you enter do not match any stored Contacts entry, the digits are automatically prepended with the area code and prefix you specify.

To activate this feature:

1. Press **MENU OK** to access the main menu.
2. Select **Settings** and press **MENU OK**.
3. Select **Others** and press **MENU OK**.
4. Select **Abbrev. Dial** and press **MENU OK**.
5. Select **Enable** and press **MENU OK**.
6. Enter a six-digit number (area code and prefix) and press **MENU OK** or **OK** (left softkey).
 - To deactivate this feature, highlight **Disable** during step 5 above.

Tip: If you enter fewer than 6 digits, the display shows a warning message. See “Abbreviated Dialing” on page 25.

Headset Mode

This feature allows you hands-free phone use. Set the headset mode to Voice Call or Ready Link and press the Turbo Button (the operation button) on the headset to activate useful functions.

To set headset mode:

1. Press **MENU OK** to access the main menu.
2. Select **Settings** and press **MENU OK**.
3. Select **Others** and press **MENU OK**.
4. Select **Headset Mode** and press **MENU OK**.
5. Select **Voice Call** or **Ready Link** and press **MENU OK**.
 - Press **Info** (right softkey) during step 5 above to see the Headset Mode information screen.
 - To deactivate this feature, select **Off** during step 5 above.

With the headset:

- ▶ **Voice Call:** Press the Turbo Button to activate Voice dial. Press twice to redial the last call. Press and hold the button to record a Voice Memo.
- ▶ **Ready Link:** Press and hold the Turbo Button to redial the last PCS Ready Link call.

Sleep Mode

This feature helps conserve your battery power by restricting the display.

To set sleep mode:

1. Press **MENU OK** to access the main menu.
2. Select **Settings** and press **MENU OK**.
3. Select **Display** and press **MENU OK**.
4. Select **Sleep Mode** and press **MENU OK**.
5. Select **Main LCD** or **Sub LCD** and press **MENU OK**.
6. Select your desired option, and press **MENU OK**.
 - To deactivate this feature, highlight **Off** during step 6 above.

Setting Message Notification

You can see a pop-up message notification when you receive a text message or Voicemail while you are in PCS Vision applications, Browser mode, or Voice Calls.

To set message notification:

1. Press **MENU OK** to access the main menu.
2. Select **Settings** and press **MENU OK**.
3. Select **Messaging** and press **MENU OK**.
4. Select **Display Pop-up** and press **MENU OK**.
5. Highlight the box and press **MENU OK** to check/uncheck the box next to **Games/Apps**, **Browser**, or **Voice Calls**.
6. Press **Save** (left softkey).
 - Press **Info** (right softkey) during step 5 above to see the Messages information.

Editing Canned Messages

Your phone can store pre-set (canned) messages for use with text messaging and Picture Mail. You can edit your phone's default canned messages through the Settings menu. (For more information on using canned messages, see pages 141 and 184.)

To edit your phone's canned messages:

1. Press **MENU OK** to access the main menu.
2. Select **Settings** and press **MENU OK**.
3. Select **Messaging** and press **MENU OK**.
4. Select **Canned Msgs** and press **MENU OK**.
5. Select the message you want to edit and press **MENU OK**.
 - To reset all messages, press **Options** (right softkey), select **Reset All Msgs**, and press **MENU OK** during step 5 above.
6. Use your keypad to edit the message and press **OK** (left softkey) or **MENU OK** to save your changes. ("Canned Msg Saved" will display.)

Note: For information on editing text, see "Entering Text" on page 91.

Setting the Current Time

To set the current time when you are roaming in an area with no digital network:

1. Press **MENU OK** to access the main menu.

By using the security settings on your PCS Phone, you receive peace of mind without sacrificing flexibility. With several options available, you can customize your phone to meet your personal needs.

Accessing the Security Menu

You must enter your lock code to view the Security menu.

To access the Security menu:

1. Press **MENU OK** to access the main menu.
2. Select **Settings** and press **MENU OK**.
3. Select **Security** and press **MENU OK**.
4. Enter your lock code. (The Security menu displays.)

Tip: If you can't recall your lock code, try using the last four digits of either your Social Security number or PCS Phone Number or try 0000. If none of these work, call PCS Customer Solutions at 1-888-211-4PCS (4727).

Locking Your Phone

When your phone is locked, you can only receive incoming calls or make calls to 911, PCS Customer Solutions, or special numbers.

To lock your phone:

1. From the Security Menu display (see “Accessing the Security Menu”), select **Lock Phone** and press **MENU OK**.
2. Select **Lock Now** or **On Power-up** and press **MENU OK**.
3. Depending on your preference, highlight either **Full Lock** or **Except Incom.Calls** and press **MENU OK**.
 - **Full Lock:** No phone calls can be made, except for Emergency number, **X** **2** (PCS Customer Solutions), or special numbers. No phone calls can be received except for special numbers.
 - **Except Incom.Calls:** No phone calls can be made, except for Emergency number, **X** **2** (PCS Customer Solutions), or special numbers, but all incoming calls can be received.

Tip: If you want to cancel the “On Power-up” setting before turning the phone off, select **Unlocked** during step 2 above.

Unlocking Your Phone

To unlock your phone:

1. Press **Unlock** (left softkey).
2. Enter your lock code. (Your phone will unlock and return to standby mode.)

Changing the Lock Code

To change your lock code:

1. From the Security Menu display (see “Accessing the Security Menu” on the previous page), select **Others** and press **MENU OK**.
2. Select **Change Lock** and press **MENU OK**.
3. Enter a new lock code, (“1234” for example) under **New Code**.
4. Reenter the new code under **Reenter Code**.

Calling in Lock Mode

You can place calls to 911, PCS Customer Solutions, and to your special numbers when in lock mode.

To place an outgoing call in lock mode:

- To call an Emergency number, special number, or PCS Customer Solutions, enter the phone number and press **TALK**.

Restricting Calls

You can restrict the phone numbers your phone dials or receives. (The Restrict Calls setting does not apply to 911 or PCS Customer Solutions.)

To restrict calls:

1. From the Security Menu display (see “Accessing the Security Menu” on the previous page), select **Others** and press **MENU OK**.
2. Select **Limit Use** and press **MENU OK**.
3. Select **Outgoing Calls** or **Incoming Calls** and press **MENU OK**.
4. Highlight your desired option, and press **MENU OK**.

Options:

- **Allow All** Lets you make or receive all calls.
- **PhoneBook Only** Lets you make or receive calls to or from Contacts entries, Voicemail, or special numbers only.
- **Special #s Only** Lets you make or receive calls to or from three special numbers only. (See “Using Special Numbers” on this page.)

Note: Restricted incoming calls are forwarded to voicemail.

Locking the Picture & Video Menu

With this feature, you are prompted to enter your lock code every time you access the Picture & Video menu.

To lock the Picture & Video menu:

1. From the Security Menu display (see “Accessing the Security Menu” on page 70), select **Lock Pic/Video** and press .
2. Select **Lock Now** and press 
 - To deactivate this feature, select **Unlocked** during step 2 above.

Using Special Numbers

You can save three special numbers in addition to your Contacts entries (the same number may be in both directories). You can make and receive calls from special numbers even when your phone is locked.

To add or replace a special number:

1. From the Security Menu display (see “Accessing the Security Menu” on page 70), select **Others** and press .
2. Select **Special #s** and press .
3. Select the box under an entry number and press .
4. Enter your desired phone number and press .

– or –

Press **Options** (right softkey), select **From Ph. Book** or **Voicemail**, and press .

To insert pauses into a special number:

1. From step 4 on the previous page, enter the phone number and press **Options** (right softkey) for the options.
2. Highlight **Hard Pause**, **2-Sec. Pause**, or **Hyphen** and press **MENU OK**.
3. Finish entering the rest of the numbers and press **MENU OK**.

Note: There are no Speed Dial options associated with special numbers.

Erasing the Contacts Directory

To erase all the names and phone numbers in your Contacts Directory:

1. From the Security Menu display (see “Accessing the Security Menu” on page 70), select **Erase Ph. Book** and press **MENU OK**.
2. If you’re sure you want to erase your Contacts, highlight **Yes** and press **MENU OK**.

Erasing All Downloads

To erase all data downloaded from the Web:

1. From the Security Menu display (see “Accessing the Security Menu” on page 70), select **EraseDownload** and press **MENU OK**.
2. If you’re sure you want to erase all data downloaded from the Web, select **Yes** and press **MENU OK**.
 - If you have assigned downloaded data, the function returns to its default setting.

Resetting Your Phone

Resetting the phone restores all the factory defaults, including the ringer types and display settings. The Contacts list, Call History, Scheduler, and Messaging are not affected.

To reset your phone:

1. From the Security Menu display (see “Accessing the Security Menu” on page 70), select **Reset Phone** and press **MENU OK**.
2. If you’re sure you want to reset your phone, select **Yes** and press **MENU OK**.

Resetting and Locking Your Phone Through SMS

When your phone is lost or stolen, you can erase your important personal information (such as Contacts entries, call history, and messages) and lock your phone by sending a special formatted SMS message to your phone.

From your computer, sign on to www.sprintpcs.com and send a message to your phone (input your 10-digit PCS Phone Number followed by “@messaging.sprintpcs.com.”) in the following format:

\\RESET **<Passcode>** RESET

<Passcode> – your defined passcode.

The default passcode is your phone’s 11-digit ESN (Electronic Serial Number), which is written on the package or on the phone itself.

The locked phone will display the following message:

“If found, please call PCS Customer Solutions 1-888-211-4727.”

To activate this feature, the following presetting is required:

1. Press  to access the main menu.
2. Select **Settings** and press .
3. Select **Security** and press .
4. Enter your lock code.
5. Select **Others** and press .
6. Select **Found Me** and press .
7. Select **Reset/Lock** and press .
8. Select **Enable** and press .

To unlock a phone that has been locked through SMS, bring the phone to a Sprint Store.

Changing the Passcode

To change the passcode for the special formatted SMS messages:

1. Follow steps 1-6 above.
2. Select **Chg Passcode** and press .
3. Enter new passcode in the box under **New Passcode** (11 digits).
4. Reenter the new passcode in the box under **Reenter Code**.

Security Features for PCS VisionSM

Signing In and Out of PCS Vision Services

You can sign out of PCS Vision services without turning off your phone; however you will not have access to all PCS Vision services, including Web and messaging. Signing out will avoid any charges associated with PCS Vision services. While signed out, you can still place or receive phone calls, check voicemail, and use other voice services. You may sign in again at any time.

To sign out of PCS Vision services:

1. Press **MENU OK** to access the main menu.
2. Select **Settings** and press **MENU OK**.
3. Select **PCS Vision** and press **MENU OK**.
4. Select **Disable Vision** and press **MENU OK**.
5. A message will appear. Press **Disable** (right softkey) to confirm that you want to sign out.

To sign in to PCS Vision services:

1. Press **MENU OK** to access the main menu.
2. Select **Settings** and press **MENU OK**.
3. Select **PCS Vision** and press **MENU OK**.
4. Select **Enable Vision** and press **MENU OK**.
5. Press **OK** (left softkey) to sign in.

Controlling Your Roaming Experience

In This Section

- ▶ **Understanding Roaming**
 - ▶ **Setting Your Phone's Roam Mode**
 - ▶ **Controlling Roaming Charges Using Call Guard**

Roaming is the ability to make or receive calls when you're off the Sprint Nationwide PCS Network. Your new dual-band/tri-mode PCS Phone works anywhere on the Sprint Nationwide PCS Network and allows you to roam on other networks where we've implemented roaming agreements with other carriers.

This section explains how roaming works as well as special features that let you manage your roaming experience.

Understanding Roaming

Recognizing Icons on the Display Screen

Your phone's display screen always lets you know when you're off the Sprint Nationwide PCS Network and whether your phone is operating in analog or digital mode. The following chart indicates what you'll see depending on where you're using your phone.

Main LCD/Sub LCD	Roaming Indicator	Analog Indicator
Sprint Nationwide PCS Network		
Other Digital Networks		
	Digital Roam	
Analog Networks		
		Analog Roam

Tip: Remember, when you are using your phone off the Sprint Nationwide PCS Network, always dial numbers using 11 digits (1 + area code + number).

Note: You will pay a higher per-minute rate for roaming calls.

Roaming on Other Digital Networks

When you're roaming on digital networks, your call quality and security will be similar to the quality you receive when making calls on the Sprint Nationwide PCS Network. You may not be able to access certain features, such as PCS Vision.

Note: PCS Ready Link Service is not available in roaming areas.

Roaming on Analog Networks

When you roam on analog networks, you will experience a similar quality provided by other analog carriers today. Although some features, such as PCS Vision, PCS Voice Command, and PCS Ready Link, will be unavailable, you can still make and receive calls and access voicemail. You may experience the following differences:

- ▶ You are more likely to experience static, cross-talk, fade-out, and dropped calls.
- ▶ Some features which are standard on the Sprint Nationwide PCS Network, such as call waiting, PCS Vision, PCS Ready Link, and direct international dialing, are unavailable.
- ▶ Though callers can leave voicemail messages while you are roaming, you may not receive notification until you return to the Sprint Nationwide PCS Network. While roaming, you can periodically check your voicemail for new messages by dialing 1+area code+your PCS Phone Number. Press **✕** when you hear your greeting and enter your passcode at the prompt.
- ▶ There are security and privacy risks (eavesdropping and cloning) that exist with conventional analog services today.
- ▶ Your battery needs recharging sooner when you use your phone for analog roaming.

Note: If you're on a call when you leave the Sprint Nationwide PCS Network and enter an area where roaming is available (whether digital or analog), your call is dropped. If your call is dropped in an area where you think PCS Service is available, turn your phone off and on again to reconnect to the Sprint Nationwide PCS Network.

Note: When using your phone in analog mode, the handset may feel warm. This behavior is normal for analog operation.

Setting Your Phone's Roam Mode

Your PCS Phone allows you to control your ability to roam. By using the **Roaming** menu option, you can determine which signals your phone accepts.

Set Mode

Choose from three different settings on your dual-band/tri-mode phone to control your roaming experience.

To set your phone's roam mode:

1. Press **MENU OK** to access the main menu.
2. Select **Settings** and press **MENU OK**.
3. Select **Roaming** and press **MENU OK**.
4. Select **Set Mode** and press **MENU OK**.
5. Select an option from the followings and press **MENU OK**.
 - **Sprint** allows you to access the Sprint Nationwide PCS Network only and prevents roaming on other networks.
 - **Automatic** seeks PCS Service. When PCS Service is unavailable, the phone searches for an alternate system.
 - **Analog** forces the phone to seek an analog roaming system. The previous setting (Sprint or Automatic) is restored the next time the phone is turned on.

Controlling Roaming Charges Using Call Guard

In addition to the roaming icon, Call Guard alerts you when roaming charges apply. This feature makes it easy to manage your roaming charges by reminding you when you make or receive roaming calls. It also requires you to take an additional step before placing or answering a roaming call. This additional step is not required when you make or receive calls while on the Sprint Nationwide PCS Network.

To turn Call Guard on or off:

1. Press **MENU OK** to access the main menu.
2. Select **Settings** and press **MENU OK**.
3. Select **Roaming** and press **MENU OK**.
4. Select **Call Guard** and press **MENU OK**.
5. Select **On** or **Off** and press **MENU OK**.

To place roaming calls with Call Guard on:

1. From standby mode, dial 1 + area code + the seven-digit number. (You can also initiate a call from the Contacts directory, Call History, or Messaging.)
2. Press **TALK** or **SPEAKER** (or press **MENU OK** and highlight **Call** or **Call:Speaker On**) and press **MENU OK**.
3. Press **1** to proceed while the pop-up message is displayed.
– or –
■ Press any key to erase the pop-up message, press **MENU OK**, highlight **Roam Call**, or **Roam:Speaker On**, and press **MENU OK**.

To answer incoming roaming calls with Call Guard on:

- Press **MENU OK**, highlight **Answer** or **Answer:Speaker**, and press **MENU OK**.
– or –
1. Press **TALK** or **SPEAKER**.
2. Press **1** to proceed while the pop-up message is displayed.

Remember, if the Call Guard feature is set to On, you need to take extra steps to make and receive roaming calls, even if you have selected the Analog setting (see the previous page).

Managing Call History

In This Section

- ▶ **Viewing History**
 - ▶ **Call History Options**
 - ▶ **Making a Call From Call History**
 - ▶ **Saving a Phone Number From Call History**
 - ▶ **Prepending a Phone Number From Call History**
 - ▶ **Erasing Call History**
-

The Call History keeps track of incoming calls, calls made from your PCS Phone, and missed calls. This section guides you through accessing and making the most of your Call History.

Viewing History

You'll find the Call History feature very helpful. It is a list of the last 20 phone numbers (or Contacts entries) for each call you placed, accepted, or missed. Call History makes redialing a number fast and easy. It is continually updated as new numbers are added to the beginning of the list and the oldest entries are removed from the bottom of the list.

Each entry contains the phone number (if it is available) and Contacts entry name (if the phone number is in your Contacts list). Duplicate calls (same number and type of call) may only appear once on the list.

To view a Call History list:

1. Press **MENU OK** to access the main menu.
2. Select **Call History** and press **MENU OK**.
3. Select **Outgoing Calls**, **Incoming Calls**, or **Missed Calls** and press **MENU OK**.

Tip: You can switch the Voice Call history to the PCS Ready Link call history by pressing **R-Link** (left softkey). To return to the Voice Call history, press **Voice Call** (left softkey).

Call History Options

For additional information and options on a particular call, highlight a Call History entry and press **Options** (right softkey).

This feature gives you the option of selecting:

- ▶ **Call** to dial the phone number.
- ▶ **Call:Speaker On** to dial the phone number in speakerphone mode.
- ▶ **Send Message** to send a text message. See page 184 for details.
To attach pictures or video files, see page 141 (picture) or page 152 (video) for details.
- ▶ **Save Phone#** to save the phone number (if applicable). If the caller's phone number is already saved in your Contacts list, **Go to Phone Book** appears. (See "Saving a Phone Number From Call History" on the next page.)
- ▶ **Prepend** to add numbers to the beginning of the phone number. (See "Prepending a Phone Number From Call History" on page 88.)
- ▶ **Copy to Personal** to copy the phone number to the Ready Link Personal List. (Only appears when PCS Ready Link mode is set to enable and the number does not match any stored entry in your Personal List.)
- ▶ **Erase** to erase the entry.

Making a Call From Call History

To place a call from Call History:

1. Press **MENU OK** to access the main menu.
2. Select **Call History** and press **MENU OK**.
3. Select **Outgoing Calls**, **Incoming Calls** or **Missed Calls**.
4. Press **MENU OK**.
5. Highlight the entry you want to call by scrolling through the list.
6. Press **TALK** or **SPEAKER**.
– or –
Press **Options** (right softkey), highlight **Call** or **Call:Speaker On**, and press **MENU OK**.

Note: You cannot make calls from Call History to entries identified as No ID or Restricted.

Saving a Phone Number From Call History

Your PCS Phone can store up to 300 Contacts entries. Contacts entries can store up to a total of 500 phone numbers and each entry's name can contain sixteen characters.

To save a phone number from Call History to your Contacts list:

1. Highlight the call history entry you want to save.
2. Press **Options** (right softkey) to display the options.
3. Highlight **Save Phone#** and press **MENU OK**.
4. Highlight appropriate label (Home, Work, Mobile, Pager, Data, Fax, or No Label) and press **MENU OK**.
5. Enter a name and press **MENU OK**.
If you have already stored entries in the Contacts list, you are prompted to select the following entry mode:
 - **New Name** to enter a name directly.
 - **From Ph. Book** to select a name from the Contacts list.
6. Press **Save** (left softkey).

Note: You cannot save phone numbers already in your Contacts list or from calls identified as No ID or Restricted. If the selected entry has already been stored in the Contacts list, **Go to Phone Book** appears during step 3 above.

Prepending a Phone Number From Call History

If you need to make a call from Call History and you happen to be outside your local area code, you can add the appropriate prefix by following these steps:

1. Highlight a call history entry and press **Options** (right softkey).
2. Highlight **Prepend** and press **MENU OK**.
3. Enter the digits you want to add to the number.
4. Press **TALK** or **SPEAKER** to make a call.

To select another option, press **MENU OK**, highlight it, and press **MENU OK**.

- **Call** to dial the phone number.
- **Call:Speaker On** to dial the phone number in speakerphone mode.
- **Save Phone#** to store the phone number in your Contacts directory.
- **[H] Hard Pause** to insert a hard pause.

Entering Text

Selecting a Character Input Mode

Your PCS Phone provides convenient ways to enter words, letters, punctuation, and numbers whenever you are prompted to enter text (for example, when adding a Contacts entry).

To change the character input mode:

1. When you display a screen where you can enter text, press the right softkey button.
2. To select a character input mode, highlight it and press .
 - **T9Word** to enter characters using T9 Text Input (see next page).
 - **Alphabet** to enter characters by tapping the keypad (see page 93).
 - **NUMBER** to enter numbers (see page 94).
 - **SYMBOL** to enter symbols (see page 94).
 - **CANNED SUFFIX** to enter a canned suffix (see page 94).
 - **SMILEYS** to enter smile pictures (see page 95).

Entering Characters Using T9 Text Input

T9 Text Input lets you enter text in your PCS Phone by pressing keys just once per letter. (To select the **T9 Word** mode when entering text, see “Selecting a Character Input Mode” on the previous page.)

T9 Text Input analyzes the letters you enter using an intuitive word database and creates a suitable word. (The word may change as you type.) If the word you want does not display after you have entered all the letters, press **Next O** to scroll through additional word selections (if applicable). To accept a word and insert a space, press **Space #**.

If you make a mistake, press **BACK** to erase a single character. Press and hold **BACK** to delete an entire entry.

Adding a Word to the T9 Database

If a word you want to enter does not display as an option when you are using T9 Text Input, you can add it to the database.

To add a word to the T9 Text Input database:

1. Select the **Alphabet** input mode. (See “Selecting a Character Input Mode” on the previous page.)
2. Enter the word using multi-tap text entry. (See “Entering Characters by Tapping the Keypad” on the next page.)
3. Press the right softkey, highlight **T9 Word** and press **MENU OK**. (The word will appear as an option the next time you scroll through options during T9 Text Input.)

For more information about T9 Text Input, visit the Tegic Website at www.T9.com.

Entering Characters by Tapping the Keypad

To enter characters by tapping the keypad, select the **Alphabet** mode (see “Selecting a Character Input Mode” on page 91). Press the corresponding key until the desired character appears. By default, the first letter of a word is capitalized and following letters are lowercase.

Characters scroll in the following order:

Key	English Sequence	
	Upper Case	Lower Case
1	., @ 1 ? ! * # /	
2	A B C 2	a b c 2
3	D E F 3	d e f 3
4	G H I 4	g h i 4
5	J K L 5	j k l 5
6	M N O 6	m n o 6
7	P Q R S 7	p q r s 7
8	T U V 8	t u v 8
9	W X Y Z 9	w x y z 9
Next 0	0	
Space #	Space	
Shift ✕	Unshifted One-character- shifted Caps Lock	

In Spanish mode, characters scroll in the following order.

Key	Spanish Sequence	
	Upper Case	Lower Case
1	., @ 1 ¿ ? ¡ ! * # /	
2	A Á B C 2	a á b c 2
3	D E É F 3	d e é f 3
4	G H I Í 4	g h i í 4
5	J K L 5	j k l 5
6	M N Ñ O Ó 6	m n ñ o ó 6
7	P Q R S 7	p q r s 7
8	T U Ú Û V 8	t u ú ù v 8
9	W X Y Z 9	w x y z 9
Next 0	0	
Space #	Space	
Shift ✕	Unshifted One-character- shifted Caps Lock	

(See page 68 for changing to Spanish language mode.)

After a character is entered, the cursor automatically advances to the next space after two seconds or when you enter a character on a different key.

Tip: The beginning of the word after the space is changed to upper/lower case depending on the entry field. You can change the shift by pressing **Shift ✕**.

Your PCS Phone is equipped with several personal information management features that help you manage your busy lifestyle. These features turn your phone into a time management planner that helps you keep up with your contacts, schedules, and commitments. It takes productivity to a whole new level.

Managing the Scheduler

Calendar

Use the Calendar to remind you of events or important calls you need to make. You can schedule up to 100 events, 15 Call Alarms, and 20 To-Do Items.

Setting the Time/Date

In a no-service area or an analog service area, it's necessary to set the actual time and date to use the Calendar function. Set the current Time/Date by using numeric keys and/or the Navigation key (◀/▶: move cursor, ▲/▼: change value). To display the time setting mode, press **MENU OK**, select **Tools/Extras**, and press **MENU OK**. Then select **Calendar** and press **MENU OK**.

You can set any time from 12:00 AM, Jan 1, 2000 to 11:59 PM, Dec 31, 2099.

Setting Holidays

You can set your personal holidays by displaying the date in red on the Calendar display. The default holidays displayed in red are Sundays and National holidays.

Note: You can set holidays from Jan 1, 2000 to Dec 31, 2020.

To set personal holidays:

1. Press **MENU OK** to access the main menu.
2. Select **Tools/Extras** and press **MENU OK**.
3. Select **Calendar** and press **MENU OK**.
4. Highlight the day you want to set to the holiday by using the Navigation key (◀: previous day, ▶: next day, ▲: previous week, ▼: next week).
5. Press **Options** (right softkey), highlight **Holiday**, and press **MENU OK**.
6. Highlight **Set Date** or **Set Weekly** from the options and press **MENU OK**.

Options:

- **Set Date** sets the selected date for the holiday.
 - **Set Weekly** sets weekly holidays.
 - **Reset Date** resets the holiday setting for the selected date.
 - **Reset Weekly** resets the weekly holiday setting.
 - **Reset All** resets all the holiday settings and returns to the default settings.
7. If you selected **Set Weekly**, **Reset Weekly**, or **Reset All**, you'll be prompted to select **Yes** or **No**.

Tip: The current day is framed by a rectangle.

Adding an Event to the Scheduler

Your Scheduler helps organize your time and reminds you of important events (up to 100 events).

To add an event:

1. Press **MENU OK** to access the main menu.
2. Select **Tools/Extras** and press **MENU OK**.
3. Select **Calendar** and press **MENU OK**.
4. Select the day you want to add an event to by using the Navigation key and press **MENU OK**.
5. Press **Options** (right softkey) to display the options.
6. Select **Add Event** and press **MENU OK**.
7. Select **Schedule** and press **MENU OK**.
8. Enter the description and press **MENU OK** (or press **MENU OK** without entering the description).
9. Select the menu under the following options and press **MENU OK**.
 - **Description** to enter a description of your event (up to 14 characters).
 - **From** to schedule the start time.
 - **To** to schedule the end time.
 - **Location** to edit the location of your event (up to 14 characters).
 - **Alarm** to select your desired ringer.
 - **Alarm Time** to edit the alarm time (number of hours or minutes before the event starts). Default alarm time is 10 minutes before.
 - **Repeat** to repeat the event. Select **None**, **Daily**, **Weekly**, **Monthly**, or **Yearly**.
10. Press **Save** (left softkey) to schedule the event.

Tip: The date you have scheduled events for is indicated by "►".

Tip: Press ▲/▼ on the Navigation key to scroll by week through the Scheduler calendar and the Side Volume key to scroll by month.

Event Alerts

There are several ways your PCS Phone alerts you of scheduled events:

- ▶ By playing the alert tone (depending on the Alert and Ringer Volume setting).
- ▶ By blinking the LED.
- ▶ By displaying the event's description on the Main LCD when the flip is open.
- ▶ By displaying the event's description on the Sub LCD when the flip is closed.
- ▶ By lighting the LCD backlight (depending on the backlight setting).

Event Alert Menu

When your phone is turned on and you have an event alarm scheduled, your phone alerts you and displays the event summary.

To respond to an event alert:

Your PCS Phone gives you the ability to take full-color digital pictures, view your pictures using the phone's display, and instantly share them with your family and friends. It's fun and as easy to use as a traditional point-and-click camera – just take a picture, view it on your phone's display, and send it to up to ten people, right from your phone. Your pictures may also be uploaded to a Picture Mail™ Website for storage or sent to another Website for your personal use. Picture quality is similar to what you see on your computer screen. In addition to taking pictures, you can also take, view, and send videos to your friends and family with your built-in camera.

This section explains the features and options of your phone's built-in PCS Vision Camera.

Taking Pictures

Taking pictures with your phone's built-in PCS Camera is as simple as choosing a subject, pointing the lens, and pressing a button. You can activate Camera mode and take pictures whether the phone is open or closed.

Using the Picture Mail Website

Once you have uploaded pictures and video files from your phone to your online Picture Mail account (see “Reviewing Pictures” on page 143), you can use your personal computer to manage your pictures and video files. From the Picture Mail Website you can send pictures, edit album titles and picture/video captions, organize and move images, and do much more.

You will also have access to picture management tools to improve and customize your pictures. You’ll be able to lighten, darken, crop, antique, add comic bubbles and cartoon effects, and use other features to transform your pictures.

To access the Picture Mail Website:

1. From your computer’s Internet connection, go to picturemail.sprintpcs.com.
2. Enter your PCS Phone Number and Picture Mail password to sign on. (See “Creating Your Picture Mail Password” on page 136.)

Now that you've mastered your phone's fundamentals, it's time to explore the calling features that enhance your PCS Service.

Using Voicemail

Setting Up Your Voicemail

All unanswered calls to your PCS Phone are automatically transferred to voicemail, even if your phone is in use or turned off. Therefore, you will want to set up your PCS Voicemail and personal greeting as soon as your PCS Phone is activated.

To set up voicemail:

1. Press and hold  1.
2. Follow the system prompts to create your passcode, record your greeting, record your name announcement, and choose whether to activate One-Touch Message Access (a feature that lets you press one key to access messages and bypasses the need for you to enter your passcode).

Note: The voicemail setup process may vary in certain Affiliate areas.

Voicemail Notification

There are several ways your PCS Phone alerts you to new voicemail messages:

- ▶ By displaying a message on the screen.
- ▶ By sounding the assigned ringer type.
- ▶ By the LED blinking.
- ▶ By displaying  at the top of your screen.

New Voicemail Message Alerts

When you receive a new voice message, your phone alerts you and prompts you to call your voicemail. To call your voicemail, press and hold . To display your Missed Log, press  or **OK** (left softkey).

Important: When you are roaming off the Sprint Nationwide PCS Network, you may not receive notification of new voicemail messages. It is recommended that you periodically check your voicemail by dialing 1 + area code + your PCS Phone Number. When your voicemail answers, press  and enter your passcode. You will be charged roaming rates when accessing voicemail while roaming off the Sprint Nationwide PCS Network.

Note: Your phone accepts messages even when it is turned off. However, you are only notified of new messages when your phone is turned on and you are in a PCS Service Area.

Retrieving Your Voicemail Messages

You can review your messages directly from your PCS Phone or from any other touch-tone phone. To dial from your PCS Phone, you can either speed dial your voicemail or use the menu keys.

Using One-Touch Message Access

- Press and hold  **1**. Follow the system prompts.

Using the Menu Keys on Your PCS Phone to Access Your Messages

1. Press  to access the main menu.
2. Select **Messaging** and press .
3. Select **Voicemail** and press .
4. Select **Call Voicemail** and press .

Note: You are charged for airtime minutes when you are accessing your voicemail from your PCS Phone.

Using a Phone Other Than Your PCS Phone to Access Messages

1. Dial your PCS Phone Number.
2. When your voicemail answers, press .
3. Enter your passcode.

Tip: When you call into voicemail you first hear the header information (date, time, and sender information) for the message. To skip directly to the message, press  during the header.

Voicemail Button Guide

Here's a quick guide to your keypad functions while listening to voicemail messages. For further details and menu options, see "Voicemail Menu Key" on page 172.

Voicemail Options

Your PCS Phone offers several options for organizing and accessing your voicemail.

Using Expert Mode

Using the Expert Mode setting for your personal voicemail box helps you navigate through the voicemail system more quickly by shortening the voice prompts you hear at each level.

To turn Expert Mode on or off:

1. Press and hold **✉1** to access your voicemail. If your voicemail box contains any new or saved messages, press **✕** to access the main voicemail menu.
2. Following the system prompts, press **3** to change your Personal Options.
3. Press **4** for Expert Mode.
4. Press **1** to turn Expert Mode on or off.

Setting Up Group Distribution Lists

You can create up to 20 separate group lists, each with up to 20 customers.

To set up a group distribution list:

1. Press and hold **☒1** to access your voicemail. If your voicemail box contains any new or saved messages, press **✕** to access the main voicemail menu.
2. Following the system prompts, press **3** to change your Personal Options.
3. Press **2** for Administrative Options.
4. Press **5** for Group Distribution Lists.
5. Follow the voice prompts to create, edit, rename, or delete group lists.

PCS Callback

To return a call after listening to a message without disconnecting from voicemail:

1. After listening to a message, press **8**.
2. Once the call is complete, you're returned to the voicemail main menu.

Voicemail-to-Voicemail Message

To record and send a voice message to other PCS Voicemail users:

1. From the main voicemail menu, press **2** to send a message.
2. Follow the voice prompts to enter the phone number.
3. Follow the voice prompts to record and send your voice message.

Voicemail-to-Voicemail Message Reply

To reply to a voice message received from any other PCS Voicemail user:

1. After listening to a voice message, press **2**.
2. Follow the voice prompts to record and send your reply.

Voicemail-to-Voicemail Message Forwarding

To forward a voice message, except those marked “Private,” to other PCS Voicemail users:

1. After listening to a message, press **6**.
2. Follow the voice prompts to enter the phone number.
3. Follow the voice prompts to record your introduction and forward the voice message.

Voicemail-to-Voicemail Receipt Request

To receive confirmation that your voice message has been listened to when you send, forward, or reply to other PCS users:

1. After you have recorded a message, press **1** to indicate you are satisfied with the message you recorded.
2. Press **4** to mark receipt requested.
3. Press **1** to send your voicemail message.

Continue Recording

- Before pressing **1** to indicate you are satisfied with the message you recorded, press **4** to continue recording.

Extended Absence Greeting

When your phone is turned off or you are off the Sprint Nationwide PCS Network for an extended period, this greeting can be played instead of your normal personal greeting.

To record an extended absence greeting:

1. From the main voicemail menu, press **3** for Personal Options.
2. Press **3** for Greetings.
3. Press **3** to record an Extended Absence Greeting.

Clearing the Message Icon

Your phone may temporarily continue to display the message icon after you have checked your voice and text messages.

To clear the icon from the display screen:

1. Press  to access the main menu.
2. Select **Messaging** and press .
3. Select **Voicemail** and press .
4. Select **Clear Count** and press .
5. Select **Yes** and press .

Using Caller ID

Caller ID lets people know who's calling by displaying the number of the person calling.

To block your phone number from being displayed for a specific outgoing call:

1. Press **✕** **6** **7**.
2. Enter the number you want to call.
3. Press **TALK**.

To permanently block your number, call PCS Customer Solutions.

Responding to Call Waiting

When you're on a call, Call Waiting alerts you to incoming calls by sounding a beep. Your phone's screen informs you that another call is coming in and displays the caller's phone number (if available).

To respond to an incoming call while you're on a call:

- Press **TALK** (or press **MENU OK**, highlight **Flash**, and press **MENU OK**). (This puts the first caller on hold and answers the second call.)

To switch back to the first caller:

- Press **TALK** again (or press **MENU OK**, highlight **Flash**, and press **MENU OK**).

Tip: For those calls where you don't want to be interrupted, you can temporarily disable Call Waiting by pressing **✕** **7** **0** before placing your call. Call Waiting is automatically reactivated once you end the call.

Making a Three-Way Call

With Three-Way Calling, you can talk to two people at the same time. When using this feature, the normal airtime rates will be charged for each of the two calls.

To make a three-way call:

1. Enter a number you wish to call and press **TALK** or **SPEAKER**.
2. Once you have established the connection, press **TALK** (or press **MENU OK**, highlight **Three-Way Call**, and press **MENU OK**). This puts the first caller on hold.
3. Dial the second number you wish to call and press **TALK** (or press **MENU OK**, highlight **Call** or **Call:Speaker On**, and press **MENU OK**).
4. When you're connected to the second party, press **TALK** again (or press **MENU OK**, highlight **Flash**, and press **MENU OK**) to begin your three-way call.

If one of the people you called hangs up during your call, you and the remaining caller stay connected. If you initiated the call and are the first to hang up, all three callers are disconnected.

Tip: You can also begin a Three-Way Call by displaying a phone number stored in your Contacts list, Call History, or Messaging. To call the third party, press **MENU OK** during step 3 above.

Note: Call Waiting and Three-Way Calling may not be available while roaming off the Sprint Nationwide PCS Network.

Using Call Forwarding

Call Forwarding lets you forward all your incoming calls to another phone number – even when your phone is turned off. You can continue to make calls from your phone when Call Forwarding is activated.

To Activate Call Forwarding:

1. Press **✖ 7 2**.
2. Enter the area code and phone number to which your future calls should be forwarded.
3. Press **TALK**. You will hear a tone to confirm the activation of Call Forwarding.

To Deactivate Call Forwarding:

1. Press **✖ 7 2 0**.
2. Press **TALK**. You will hear a tone to confirm the deactivation.

Note: You are charged a higher rate for calls you have forwarded.

Note: PCS Ready Link calls cannot be forwarded. If Call Forwarding is activated, incoming PCS Ready Link calls will not be completed.

PCS VisionSM brings you clarity you can see and hear with advanced multimedia services. These features, including PCS Mail and PCS Short Mail, chat, games, downloadable ringers, screen savers, Web access, and PCS Business ConnectionSM, are easy to learn and use. The rich, colorful graphic experience is visually comparable to your home or office computer. Clearly, it's a whole new way to look at wireless.

Getting Started With PCS Vision

With your PCS Vision Phone and PCS Service, you are ready to start enjoying the advantages of PCS Vision. This section will help you learn the basics of using your PCS Vision services, including managing your User name, launching a Vision connection, and navigating the Web with your PCS Vision Phone.

Your User Name

When you buy a PCS Vision Phone and sign up for service, you're automatically assigned a PCS Vision User name. When you use PCS Vision services, your User name is submitted to identify you to the Sprint Nationwide PCS Network. The User name is also useful as an address for PCS Mail, as a way to personalize Web services, and as an online virtual identity.

A User name is typically based on your name and a number, followed by "@sprintpcs.com." For example, the third John Smith to sign up for PCS Vision services might have jsmith003@sprintpcs.com as his User name. If you want a particular User name, you can visit www.sprintpcs.com and get the name you want – as long as nobody else has it.

Note: If you already have a PCS Mail User name, that will automatically become your PCS Vision User name.

Your User name will be automatically programmed into your PCS Phone. You don't have to enter it.

Updating Your User Name

When you change the programmed User name and select a new one, you have to update your User name through your PCS Phone.

To update your User name:

1. Press  to access the main menu.
 2. Select **Settings** and press .
 3. Select **PCS Vision** and press .
 4. Select **Update Profile** and press .
- If you want to cancel, press  while processing.

Finding Your User Name

If you aren't sure what your PCS Vision User name is, you can easily find it online or on your PCS Phone:

- ▶ **At www.sprintpcs.com** Sign on to your account using your PCS Phone Number and password. Your User name appears in the top banner, next to your phone number.
- ▶ **On your PCS Phone** You can find it under the **Phone Info** option in your phone's Settings menu.

Launching a PCS Vision Connection

To launch a PCS Vision connection:

- From standby mode, press **Web** (right softkey).
- or -
- 1. Press **MENU OK** to access the main menu.
- 2. Select **Web** and press **MENU OK**. Your PCS Vision connection will launch and the PCS Vision Home page will display.

The PCS Vision Home Page

Note: If Net Guard is enabled and displayed (see below), press **OK** (left softkey) to continue and launch the Web.

While connecting, the following will appear on the screen:
Connecting... Please wait.

Net Guard

When you first connect to the Web, the Net Guard will appear to confirm that you want to connect. This feature helps you avoid accidental connections. You can disable the Net Guard in the future by selecting **Always Auto-Connect** when the Net Guard is displayed.

To change your Net Guard settings:

1. Press  to access the main menu.
2. Select **Settings** and press .
3. Select **PCS Vision** and press .
4. Select **Net Guard** and press .
5. Select **On** or **Off** and press .
 - **On** to activate the Net Guard.
 - **Off** to deactivate the Net Guard.

Note: When enabled, the Net Guard appears only once per session. The Net Guard does not appear if the phone is merely re-connecting due to a time-out.

PCS Vision Connection Status and Indicators

Your phone's display lets you know the current status of your PCS Vision connection through indicators which appear at the top of the screen. The following symbols are used:

-  Your PCS Vision connection is active (data is being transferred). Incoming voice calls go directly to voicemail; outgoing voice calls can be made, but the PCS Vision connection will be dormant.
-  Your PCS Vision connection is dormant (no data is being sent or received). Though not currently active, when dormant the phone can restart an active connection quickly; voice calls can be made and received.
-  Your phone is not currently able to access PCS Vision service features.

If no indicator appears, your phone does not have a current PCS Vision connection. To launch a connection, see "Launching a PCS Vision Connection" on the previous page.

Navigating the Web

Navigating through menus and Websites during a PCS Vision session is easy once you've learned a few basics. Here are some tips for getting around:

Softkeys

During a PCS Vision session, the bottom line of your phone's display contains one or more softkeys. These keys are shortcut controls for navigating around the Web, and they correspond to the softkey buttons directly below the phone's display screen. Depending on which Websites you visit, the labels on the softkeys may change to indicate their function.

To use softkeys, simply press the desired softkey button. If an additional pop-up menu appears when you press the softkey button, select the menu items using your keypad (if they're numbered) or by highlighting the option and pressing **MENU OK**.

Scrolling

As with other parts of your phone's menu, you'll have to scroll up and down to see everything on some Websites.

- Press ▲/▼ on the Navigation key to scroll line by line or press the volume buttons on the side of the phone to scroll one page at a time.

Selecting

Once you've learned how to use softkeys and scroll, you can start navigating Websites.

- ▶ Select onscreen items by using the Navigation key to highlight the desired item, then press the desired softkey button (or press ).

You'll find that the left softkey is used primarily for selecting items. This softkey is often labeled "Go."

- ▶ If the items on a page are numbered, you can use your keypad (number keys) to select an item (if applicable).

Links allow you to jump to different Web pages, select special functions, or even place phone calls.

- ▶ Select links by highlighting the link and then selecting the appropriate softkey.

Tip: The tenth item in a numbered list may be selected by pressing the  key on your phone's keypad, even though the number 0 doesn't appear on the screen.

Going Back

- To go back one page, press the  key on your phone. (Note that the  key is also used for deleting text [like a BACKSPACE key] when you are entering text.)

Going Home

- To return to the PCS Vision Home page from any other Web page, press the right softkey, then highlight **Home** and press **OK** (left softkey).

Messaging

Now you can send and receive email and text messages and participate in Web-based chatrooms right from your PCS Phone. Messaging allows you to stay connected to friends, family, and co-workers 24 hours a day anywhere on the Sprint Nationwide PCS Network.

Message Types

There are many types of text messaging available on your phone. (PCS Voicemail provides voicemail-to-mailbox messaging. For information on using your phone's voicemail feature, see "Using Voicemail" on page 166.)

Messages

These appear on your screen as **Notifications** and include numeric messages (pages), Messages, Updates, and Mail.

New Messages

When you receive a new Message, your phone will alert you. Press **View** (left softkey) to display the message list.

- ▶ Press **Call** (left softkey) to dial the phone number (if applicable).
- ▶ Press **Reply** (left softkey) to reply the message.
- ▶ Press **Go** (left softkey) to go to the Website.
- ▶ Press **Forward** (left softkey) to forward the message. (Appears only if there are no phone numbers or URLs in the message.)
- ▶ Press **Options** (right softkey) to display options. (See page 186 for details.)

Message Storage

Your PCS Phone can store up to 200 received and 180 sent Messages. When the message memory is full, the oldest unlocked message will be deleted automatically. (See page 187 for locking messages.)

Displaying Messages

To display a Message from the message notification alert, see “New Messages” on the previous page.

To display a Message from the main menu:

- 1. Press  to access the main menu.
- 2. Select **Messaging** and press .
- 3. Select **Text Msg** and press . (The folder list appears.)
- 4. Select **Inbox**, **Sent**, **Outbox**, **Drafts**, or your defined folder and press . (The message list appears.)
- 5. Highlight the header of the message you want to see and press . (The message detail appears.)

When you display the message list, icons appear at the left side of each header of the message.

Icon Indication

Function	Icons	Details
Folder		A new message folder
Inbox		Unread message
		Read message
Sent		Sent message
Outbox		Unsent message
		Plural unsent message
Drafts		Draft message

Sending a Message

With Messaging, you can use a person's wireless phone number to send and receive instant text messages from your PCS Vision Phone to their messaging-ready phone – and they can send messages to you. When you receive a new message, you'll automatically be notified with a two-way text message.

To send a text message:

1. Press **MENU OK** to access the main menu.
2. Select **Messaging** and press **MENU OK**.
3. Select **Send Message** and press **MENU OK**.
4. Select **Text Message** and press **MENU OK**.
5. Select **From Phone Book**, **Mobile Phone#**, or **Email Address** to enter recipients.
 - **From Phone Book** to select a recipient from your Contacts list. Highlight an entry and press **MENU OK** to select. Or select **<New Entry>** to enter a new entry.
 - **Mobile Phone#** to enter a mobile phone number directly.
 - **Email Address** to enter an email address directly.
6. To add a recipient, press **Options** (right softkey), select **Add Recipients**, and press **MENU OK**.
 - **Edit** to edit the selected entry.
 - **Erase** to erase the selected entry.
 - **Erase All** to erase all entries you have selected/entered.
 - **Add Recipient** to add recipients.
7. Press **Next** (left softkey) when you are finished selecting/entering recipients (you may include up to 10 recipients).
8. To enter a message, select the box under Message and press **MENU OK**.
9. Use your keypad to enter a text message (or press the right softkey to select from **Canned Messages** or **Recent Messages**).
10. To set the message priority, select the box under Priority and press **MENU OK**.
11. Select **Ordinary** or **Urgent** and press **MENU OK**.
12. Press **Send** (left softkey) to send the message.

To change the recipients or to save the message as a draft, press **Options** (right softkey) and select **Chg Recipients** or **Save to Drafts** during steps 8-12 on the previous page.

- ▶ **Chg Recipients** to change Recipients.
- ▶ **Save to Drafts** to save the message to a Drafts folder. (See below to edit and send the draft message.)

Signing Up for Updates

With Updates, you can have news and information sent directly to your PCS Phone at the times you choose.

To select the information you want to send to your PCS Phone:

1. From your computer, log on to the Internet.
2. Go to the site from which you want to receive information. A few of the sites you can visit are America Online®, Yahoo!®, MSN®, and eBay®. (The location where you request updates within each site will vary.)
3. Where indicated on the site, input your 10-digit PCS Phone Number followed by “@messaging.sprintpcs.com.” For example: 5551234567@messaging.sprintpcs.com.

Upon completing the registration process, you should begin receiving updates on your PCS Phone as requested.

PCS Mail

Using PCS Mail

With PCS Mail, you can set up an account at no additional charge and perform many of the typical email functions from your PCS Phone that you can from your personal computer.

You can manage your PCS Mail account from your PCS Phone or from your personal computer at www.sprintpcs.com. You can also access other select email providers from the Web through your PCS Mail.

Accessing PCS Mail Messages

To access PCS Mail messages:

1. Press **MENU OK** to access the main menu.
2. Select **Messaging** and press **MENU OK**.
3. Select **Go to PCS Mail** and press **MENU OK**. (If you're a first-time user, your phone will prompt you to set up your PCS Mail account by establishing a User name and password.)
4. To view your messages, select **Inbox** and press **OK** (left softkey).
5. Scroll to select the message you wish to read and press the left softkey.
6. Once you've read a message, use the quick actions at the end of each message (**Reply**, **Reply All**, **Forward**, **Erase**, **Add to Folder**, or **Main**).

Composing PCS Mail Messages

To compose a PCS Mail message:

1. From the PCS Mail menu (see steps 1-3 above), select **Compose**.
2. Scroll to select the address box and enter the address of the person to whom you're sending a message and press the left softkey.
3. Scroll to select the message box and enter the subject and your message.
4. Select **Send** when your message is ready to be delivered.

Email

With PCS Vision, you can use popular email services such as AOL® Mail, Yahoo!® Mail, and Earthlink® to keep in touch even while you're on the go.

Accessing Email

To access email providers from your PCS Vision Phone:

1. From the PCS Vision Home page, select **Messaging**.
2. Select **Email**.
3. Select an email provider, such as **AOL Mail**, **Yahoo! Mail**, or **Earthlink**.
4. Use your keypad to enter the required sign in information for the selected provider, such as user name, email address, and/or password, and select **Sign In**. (Your mailbox for the selected provider will display.)

Note: The information required for sign in will vary depending on the email provider you are accessing.

5. Follow the onscreen instructions to read, reply to, compose, send, and manage your email account.

Instant Messaging

PCS Vision also provides you with access to popular instant messaging (IM) clients, including AOL® Instant Messenger™, Yahoo!® Messenger, MSN® Messenger, and Hallmark Hiya™ greetings.

Accessing Instant Messaging

1. From the PCS Vision Home page, select **Messaging**.
2. Select **Instant Messaging**.
3. Select an email provider, such as **AOL Instant Messenger** or **Yahoo! Messenger**.
4. Use your keypad to enter the required sign in information for the selected provider, such as user name and/or password, and select **Sign In**. (Your IM screen for the selected provider will display.)

Note: The information required for sign in will vary depending on the instant messaging provider you are accessing.

5. Follow the onscreen instructions to read, reply to, compose, send, and manage your IM account.

Chat

PCS Vision gives you the ability to join wireless chatrooms from your PCS Phone. Send text messages and icons to chatroom participants or launch a one-on-one (private) chatroom.

To access a chatroom from the browser:

1. Press **MENU OK** to access the main menu.
2. Highlight **Web** and press **MENU OK**.
3. Select **Messaging**.
4. Select **CHAT**.

6. Select a chatroom from the menu (for example, “Friends” or “Singles”).
7. Use your keypad to enter a nickname and select **Enter**. Once in the chatroom, you may scroll through the postings to read messages from other chatroom participants.

Note: To avoid inadvertent data usage charges, you should log out of chatrooms when you are ready to exit.

To post a message:

1. During an active chatroom session, select **Add text**.
2. Enter your message.
3. Select **Send**.

To set up a private chatroom:

1. From an active chatroom session, select **1->1**.
2. Select a chatter with whom you'd like to launch a private chatroom. (An invitation for a 1-to-1 chat will be sent to the selected person. If they accept, you will both be transferred to a private chatroom.)

To exit a chatroom:

- Select **Leave Room**.

Downloading Premium Services Content

With PCS Vision and your new PCS Vision Phone, you have access to a dynamic variety of Premium Service content such as downloadable Games, Ringers, Screen Savers, and Applications. While each type of download involves a different file type, the basic method for accessing and downloading files is the same.

Accessing the Download Menus

To access the PCS Vision download menus:

1. Press **MENU OK** to access the main menu.
2. Select **Downloads** and press **MENU OK**.
3. Select the type of file you wish to download (**Games, Ringers, Screen Savers, Applications**) and press **MENU OK**.
4. Select **Get New** and press **MENU OK**. (The browser will launch and take you to the corresponding download menu.)

To access the PCS Vision download menus from the Web browser:

- From the PCS Vision Home page, select **Games, Ringers, or Screen Savers** to go to the corresponding download menu. (For more information on navigating the Web, see “Navigating the Web” on page 180.)

Selecting an Item to Download

From the download menus, items available for download may be searched in a number of ways:

- ▶ **Featured** displays a rotating selection of featured items.
- ▶ **Browse Category** allows you to narrow your search to a general category, such as Movie/TV Themes for Ringers or College Logos for Screen Savers. (There may be several pages of available content in a list. Select **Next** to view additional items.)
- ▶ **Search** allows you to use your keypad to enter search criteria to locate an item. You may enter an entire word or title or perform a partial-word search (for example, entering “goo” returns “Good Ol’ Boy,” “The Good, the Bad, and the Ugly,” and “Goofy - Club”).

Downloading an Item

Once you've decided on an item to download, highlight it and press  or select **OK** (left softkey). You will see a summary page for the item including its title, the vendor, the download detail, the file size, and the cost. Links allow you to view the **License Details** page, which outlines the price, license type, and length of license for the download, and the **Terms of Use** page, which details the Premium Services Terms of Use and your responsibility for payment.

To download a selected item:

1. From the information page, select **Buy** (or **Get It** in the case of a free item). (If you have not previously purchased an item, you will be prompted to create your purchasing profile.)
2. You will see a **Confirmation** screen confirming your purchase and informing you that the charge will be added to your next PCS Invoice. You will also be informed that the downloaded item has been stored in **My Content Manager**.
3. Select **Download** to initiate the download of the item. (You will see a series of browser screens, ending with the **Download** screen, which lists the item name, vendor, version, size, and type.)
4. Press **Next** (right softkey) to download the item.
5. You will see another series of screens detailing the download initiation, progress (in kilobytes), and saving process. When the **Completed** screen appears, the item has been successfully downloaded to your phone.
 - Select **Use** (left softkey) to assign the downloaded item (or to play, in the case of a game).
 - or -
 - Select **Shop** (right softkey) to look for other items to download.
 - or -
 - Press  to quit the browser and return to standby mode.

(A message appears confirming that the image has been assigned.)

Note: Depending on the data, you can select where to assign downloaded images: Image data can be assigned to Incoming Calls, Screen Saver, or Phone Book. Animation data can be assigned to Standby, Outgoing Calls, or Service Search.

Note: You may assign a Screen Saver to more than one task.

Purchasing Screen Savers

You can purchase Screen Savers directly from your phone by following the instructions on page 197, or through www.sprintpcs.com.

Note: My Content Manager saves items for up to 90 days. Once an item has been downloaded to your phone, you may keep the file for as long as you like.

Web

With Web on your PCS Vision Phone, you can browse full-color graphic versions – not just text versions – of your favorite Websites, making it easier than ever to stay informed while on the go.

Check sports scores, trade stocks, and shop on your PCS Phone anywhere within the Sprint Nationwide PCS Network.

In addition to the features already covered in this section, the PCS Vision Home page offers access to these colorful, graphically rich Web categories. Many sites are available under more than one menu – choose the one that's most convenient for you.

- ▶ **News:** Get up-to-the-minute news regarding finance, business, sports, and entertainment at sites like CNN to Go, Bloomberg, USA Today, and Forbes.
- ▶ **Weather:** Access The Weather Channel to get current weather conditions and forecasts.
- ▶ **Entertainment:** Get the latest buzz on your favorite stars as well as movie and music reviews at Websites like E! Online, Pocket BoxOffice™, and TastNtalk.
- ▶ **Sports:** Enjoy current news, statistics, and sports scores, as well as updates of events in progress at ESPN.com and other sports sites.
- ▶ **Finance:** Use Websites like Bloomberg, Fidelity, and Forbes to get stock quotes, make trades, and check your bank account online.
- ▶ **Travel:** Access flight information and make dining arrangements from travel Websites like Saber and Fodors.
- ▶ **Shopping:** Browse or purchase from popular shopping Websites like Amazon.com or Edmunds.
- ▶ **Tools:** Use tools like Switchboard to access yellow pages, white pages – even reverse phone number look-up or use Google to search for other Websites or images.
- ▶ **Business Links:** Access your PCS Business Connection Personal or Enterprise Edition along with links to many business-related sites.
- ▶ **My Account:** Check minutes and PCS Vision usage, view your current invoice, or make a payment.
- ▶ **Google Search:** Launch a Google search in one of three classes: PCS Web, Images, or Internet.

Using the Browser Menu

Navigating the Web from your phone using the PCS Vision Home page is easy once you get the hang of it. For details on how to navigate the Web, select menu items, and more, see “Navigating the Web” on page 180.

Although the PCS Vision Home Page offers a broad and convenient array of sites and services for you to browse, not all sites are represented, and certain functionality, such as going directly to Websites and creating bookmarks is not available. For these and other functions, you will need to use the browser menu. The browser menu is a pop-up menu which offers additional functionality to expand your use of the Web on your PCS Phone.

Opening the Browser Menu

The browser menu may be opened anytime you have an active Vision session from any page you are viewing.

To open the browser menu:

1. From standby mode, press **Web** (right softkey).
2. Press the right softkey.
– or –
 1. Press  to access the main menu.
 2. Highlight **Web** and press .
 3. Press the right softkey.

Tip: When Ready Link Guard is set to On, a warning message will appear. Press **Continue** (left softkey) to continue. See page 43 for Ready Link Guard.

Options available under the browser menu include:

- ▶ **Home** returns the browser to the PCS Vision Home page.
- ▶ **Forward** allows you to go forward to the pages you have visited.
- ▶ **Mark this page** allows you to create new bookmarks.

PCS Business ConnectionSM Personal Edition

PCS Business ConnectionSM Personal Edition gives you secure, real-time mobile access to your Microsoft® Outlook® or Lotus Notes® company email, calendar, business directory, and personal contacts. You'll have the features and functions of your Microsoft Outlook and Lotus Notes so you can view, create, reply to, and delete email; schedule appointments; and look up phone numbers in real time, anywhere on the Sprint Nationwide PCS Network.

PCS Business Connection Personal Edition delivers the following features:

- ▶ **Business email access:** Read, reply to, forward, delete, and compose your company email.
- ▶ **Company directory and contacts:** Search, view, call, and email contacts from your company's directory. Do all this and add/edit your personal contacts.
- ▶ **Work calendar:** Accept and decline meetings, view daily summaries and details, and navigate to various dates.
- ▶ **Files/information on your PC:** Browse folders, download, and view documents from any device using a PC browser or Pocket Internet Explorer.

PCS Business Connection Personal Edition requires no hardware or software installation on your company's network. Just install the PCS Business Connection Personal Edition software on your work PC. This allows data to be securely retrieved in real-time by your wireless device when connected to the Sprint Nationwide PCS Network. There is a monthly charge for PCS Business Connection and usage charges will also apply.

When your work PC isn't on, you can share connections with your co-workers so that you always have access to your email, calendar, and contacts. Your data remains secure behind the corporate firewall and any changes you make on your wireless device are instantly updated on your company server without the need to synchronize.

Additional PCS Business Connection solutions are available for your company. For more details, visit businessconnection.sprintpcs.com.

Note: See your PCS Service Plan for PCS Business Connection billing details.

PCS Vision FAQs

How will I know when my phone is ready for PCS Vision service?

When your phone is ready, your User Address will be displayed in Phone# User ID menu. Go to **Setting > Phone Info > Phone# UserID**.

How do I sign-in for the first time?

You are automatically signed in to access PCS Vision services when you turn on your phone.

How do I know when my phone is connected to PCS Vision services?

Your phone automatically connects when PCS Vision service is used. Your phone will also display the  icon. (Connecting takes about 10-12 seconds.)

Can I make calls and use PCS Vision services at the same time?

You cannot use voice and PCS Vision services simultaneously.

If you receive a call while PCS Vision service is active, the call will be forwarded to voicemail. You can place an outgoing call anytime, but it will interrupt any in-progress PCS Vision session.

When is my data connection active?

Your connection is active when data is being transferred. Outgoing calls are allowed; incoming calls go directly to voicemail. When active, the  (Sending) or  (Receiving) indicator flashes on your phone's display screen.

When is my data connection dormant?

If no data is received for 10 seconds, the connection goes dormant. When the connection is dormant, voice calls are allowed. If no data is received for an extended period of time, the connection will terminate.

Can I sign out of data services?

You can sign out without turning off your phone, however you will not be able to browse the Web or use other PCS Vision services. While signed out, you can still place or receive phone calls, check voicemail, and use other voice services. You may sign in again at any time. To sign out, go to **Settings > PCS Vision > Disable Vision** in your phone's menu.

-

With Sprint, the first wireless provider to offer innovative PCS Voice Command technology, reaching your friends, family, and co-workers has never been easier – especially when you're on the go. Your voice does it all with PCS Voice Command.

Getting Started With PCS Voice Command

With PCS Voice Command:

- ▶ You can store all your contacts' phone numbers, so you can simply say the name of the person you want to call.
- ▶ There's no need to punch in a lot of numbers, memorize voicemail passwords, or try to dial while you're driving.
- ▶ You can call anyone in your address book – even if you don't remember their phone number.

It's Easy to Get Started

- Just dial   from your PCS Phone to activate the service and listen to brief instructions directly from your phone. (There is a monthly charge for PCS Voice Command.)

Creating Your Own Address Book

You can program up to 500 names into your personal address book, with each name having up to five phone numbers. That's 2,500 phone numbers – and with the advanced technology of PCS Voice Command – you can have instant access to all of them.

There are four ways to update your address book:

- ▶ **Use Voice Recordings:** Simply dial   and say, "Add name." You will then be asked to say the name and number you want to add to your personal address book. Your address book can store up to 20 voice recorded names at once.
- ▶ **On the Web:** Go to www.talk.sprintpcs.com and receive a fully functional Web-based address book to create and update your contacts.
- ▶ **Use an Existing Address Book:** Automatically merge address books from desktop software applications with Sprint SyncSM Services for no additional charge. Simply click on the "Click to synchronize" button within your PCS Voice Command personal address book at www.talk.sprintpcs.com.
- ▶ **Call Directory Assistance:** If you don't have a computer or Internet access handy, you can have PCS Directory Assistance look up phone numbers for you and automatically add them to your address book. Just say "Call operator" and we'll add two names and numbers to your address book for our standard directory assistance charge.

Making a Call With PCS Voice Command

To place a call using PCS Voice Command:

1. Once you've signed up for PCS Voice Command and created your address book, all you do is press  . You'll hear a tone followed by the prompt "Ready."
2. After the "Ready" prompt, simply say, in a natural voice, "Call" and the name of the person or the number you'd like to call. For example, you can say, "Call Jane Smith at work," "Call John Baker on the mobile phone," "Call 555-1234," or "Call Bob Miller."
3. Your request will be repeated and you will be asked to verify. Say "Yes" to call the number or person. Say "No" if you wish to cancel.
4. The number will automatically be dialed. Keep in mind that PCS Voice Command recognizes not only your voice, but any voice, so that others can experience the same convenience if they use your phone.

For more helpful hints on PCS Voice Command, including a list of recognized commands and an interactive tutorial, visit www.talk.sprintpcs.com.

Note: PCS Voice Command is not available while roaming off the Sprint Nationwide PCS Network.

Part of getting the most out of your PCS Phone is learning how the phone works and how to care for it. This section outlines performance and safety guidelines that help you understand the basic features of your phone's operation.

Getting the Most Out of Your Reception

Keeping Tabs on Signal Strength

The quality of each call you make or receive depends on the signal strength in your area. Your phone informs you of the current signal strength by displaying a number of bars next to the signal strength icon. The more bars displayed, the stronger the signal. If you're inside a building, being near a window may give you better reception.

Understanding the Power Save Feature

If your phone is unable to find a signal after 15 minutes of searching, a Power Save feature is automatically activated. If your phone is active, it periodically rechecks service availability or you can check it yourself by pressing any key. Anytime the Power Save feature is activated, a message displays on the screen. When a signal is found, your phone returns to standby mode.

Understanding How Your Phone Operates

Your phone is basically a radio transmitter and receiver. When it's turned on, it receives and transmits radiofrequency (RF) signals. When you use your phone, the system handling your call controls the power level. This power can range from 0.01μ watts to 0.2 watts in digital mode.

Knowing Radiofrequency Safety

The design of your PCS Phone complies with updated NCRP standards described below.

In 1991-92, the Institute of Electrical and Electronics Engineers (IEEE) and the American National Standards Institute (ANSI) joined in updating ANSI's 1982 standard for safety levels with respect to human exposure to RF signals. More than 120 scientists, engineers and physicians from universities, government health agencies and industries developed this updated standard after reviewing the available body of research. In 1993, the Federal Communications Commission (FCC) adopted this updated standard in a regulation. In August 1996, the FCC adopted hybrid standard consisting of the existing ANSI/IEEE standard and the guidelines published by the National Council of Radiation Protection and Measurements (NCRP).

Maintaining Your Phone's Peak Performance

There are several simple guidelines to operating your phone properly and maintaining safe, satisfactory service.

- ▶ Hold the phone with the antenna raised, fully-extended, and over your shoulder.
- ▶ Try not to hold, bend, or twist the phone's antenna.
- ▶ Don't use the phone if the antenna is damaged.
- ▶ Speak directly into the mouthpiece.
- ▶ Avoid exposing your phone and accessories to rain or liquid spills. If your phone does get wet, immediately turn the power off and remove the battery. If it's inoperable, return it to a Sprint Store or call PCS Customer SolutionsSM for service.

Note: For the best care of your phone, only Sprint authorized personnel should service your phone and accessories. Faulty service may void the warranty.

Maintaining Safe Use of and Access to Your Phone

FAILURE TO FOLLOW THE INSTRUCTIONS OUTLINED MAY LEAD TO SERIOUS PERSONAL INJURY AND POSSIBLE PROPERTY DAMAGE

Using Your Phone While Driving

Talking on your phone while driving (or operating the phone without a hands-free device) is prohibited in some jurisdictions. Laws vary as to specific restrictions. Remember that safety always comes first.

When using your phone in the car:

- ▶ Get to know your phone and its features, such as speed dial and redial.
- ▶ When available, use a hands-free device.
- ▶ Position your phone within easy reach.
- ▶ Let the person you are speaking to know you are driving; if necessary, suspend the call in heavy traffic or hazardous weather conditions.
- ▶ Do not take notes or look up phone numbers while driving.

- ▶ Dial sensibly and assess the traffic; if possible, place calls when stationary or before pulling into traffic.
- ▶ Do not engage in stressful or emotional conversations that may divert your attention from the road.
- ▶ Dial **9 1 1** to report serious emergencies. It's free from your wireless phone.
- ▶ Use your phone to help others in emergencies.
- ▶ Call roadside assistance or a special non-emergency wireless number when necessary.

Tip: Purchase an optional hands-free car kit at your local Sprint Store. You may also call the PCS Accessory Hotline at 1-800-974-2221 or by dialing **# 2 2 2** on your PCS Phone.

Following Safety Guidelines

To operate your phone safely and efficiently, always follow any special regulations in a given area. Turn your phone off in areas where use is forbidden or when it may cause interference or danger.

Using Your Phone Near Other Electronic Devices

Most modern electronic equipment is shielded from radiofrequency (RF) signals. However, RF signals from wireless phones may affect inadequately shielded electronic equipment.

RF signals may affect improperly installed or inadequately shielded electronic operating systems and/or entertainment systems in motor vehicles. Check with the manufacturer or their representative to determine if these systems are adequately shielded from external RF signals. Also check with the manufacturer regarding any equipment that has been added to your vehicle.

Consult the manufacturer of any personal medical devices, such as pacemakers and hearing aids, to determine if they are adequately shielded from external RF signals.

Note: Always turn off the phone in health care facilities and request permission before using the phone near medical equipment.

Turning Off Your Phone Before Flying

Turn off your phone before boarding any aircraft. To prevent possible interference with aircraft systems, the U.S. Federal Aviation Administration (FAA) regulations require you to have permission from a crew member to use your phone while the plane is on the ground. To prevent any risk of interference, FCC regulations prohibit using your phone while the plane is in the air.

Turning Off Your Phone in Dangerous Areas

To avoid interfering with blasting operations, turn off your phone when in a blasting area or in other areas with signs indicating that two-way radios should be turned off. Construction crews often use remote-control RF devices to set off explosives.

Turn off your phone when you're in any area that has a potentially explosive atmosphere. Although it's rare, your phone or its accessories could generate sparks. Sparks could cause an explosion or a fire resulting in bodily injury or even death. These areas are often, but not always, clearly marked. They include:

- ▶ Fueling areas such as gas stations.
- ▶ Below deck on boats.
- ▶ Fuel or chemical transfer or storage facilities.
- ▶ Areas where the air contains chemicals or particles such as grain, dust, or metal powders.
- ▶ Any other area where you would normally be advised to turn off your vehicle's engine.

Note: Never transport or store flammable gas, liquid, or explosives in the compartment of your vehicle that contains your phone or accessories.

Restricting Children's Access to your Phone

Your PCS Phone is not a toy. Children should not be allowed to play with it because they could hurt themselves and others, damage the phone or make calls that increase your phone bill.

Caring for the Battery

Protecting Your Battery

The guidelines listed below help you get the most out of your battery's performance.

- ▶ Use only Sprint-approved batteries and desktop chargers. These chargers are designed to maximize battery life. Using other batteries or chargers voids your warranty and may cause damage.
- ▶ In order to avoid damage, charge the battery only in temperatures that range from 32° F to 113° F (0° C to 45° C).
- ▶ Don't use the battery charger in direct sunlight or in high humidity areas, such as the bathroom.
- ▶ Never dispose of the battery by incineration.
- ▶ Keep the metal contacts on top of the battery clean.
- ▶ Don't attempt to disassemble or short-circuit the battery.
- ▶ The battery may need recharging if it has not been used for a long period of time.
- ▶ It's best to replace the battery when it no longer provides acceptable performance. It can be recharged hundreds of times before it needs replacing.
- ▶ Don't store the battery in high temperature areas for long periods of time. It's best to follow these storage rules:

Less than one month:

4° F to 140° F (-20° C to 60° C)

More than one month:

4° F to 113° F (-20° C to 45° C)

Disposal of Lithium Ion (Lilon) Batteries

For safe disposal options of your LiIon batteries, contact your nearest Sprint-authorized service center.

Special Note: Be sure to dispose of your battery properly. In some areas, the disposal of batteries in household or business trash may be prohibited.

Note: For safety, do not handle a damaged or leaking Lilon battery.

Acknowledging Special Precautions and the FCC Notice

FCC Notice

The phone may cause TV or radio interference if used in close proximity to receiving equipment. The FCC can require you to stop using the phone if such interference cannot be eliminated.

Vehicles using liquefied petroleum gas (such as propane or butane) must comply with the National Fire Protection Standard (NFPA-58). For a copy of this standard, contact the National Fire Protection Association, One Batterymarch Park, Quincy, MA 02269, Attn: Publication Sales Division.

Cautions

Any changes or modifications to your phone not expressly approved in this document could void your warranty for this equipment, and void your authority to operate this equipment. Only use approved batteries, antennas and chargers. The use of any unauthorized accessories may be dangerous and void the phone warranty if said accessories cause damage or a defect to the phone.

Although your phone is quite sturdy, it is a complex piece of equipment and can be broken. Avoid dropping, hitting, bending or sitting on it.

Body-Worn Operation

To maintain compliance with FCC RF exposure guidelines, if you wear a handset on your body, use the Sprint supplied or approved carrying case, holster or other body-worn accessory. If you do not use a body-worn accessory, ensure that the antenna is at least 1.9 cm from your body when transmitting. Use of non-Sprint approved accessories may violate FCC RF exposure guidelines.

For more information about RF exposure, please visit the FCC Website at www.fcc.gov.

Specific Absorption Rates (SAR) for Wireless Phones

The SAR is a value that corresponds to the relative amount of RF energy absorbed in the head of a user of a wireless handset.

The SAR value of a phone is the result of an extensive testing, measuring and calculation process. It does not represent how much RF the phone emits. All phone models are tested at their highest value in strict laboratory settings. But when in operation, the SAR of a phone can be substantially less than the level reported to the FCC. This is because of a variety of factors including its proximity to a base station antenna, phone design and other factors. What is important to remember is that each phone meets strict federal guidelines. Variations in SARs do not represent a variation in safety.

All phones must meet the federal standard, which incorporates a substantial margin of safety. As stated above, variations in SAR values between different model phones do not mean variations in safety. SAR values at or below the federal standard of 1.6 W/kg are considered safe for use by the public.

The highest reported SAR values of the SCP-5500 are:

AMPS/CDMA modes (Part 22) - Head: 1.250 W/kg; Body-worn: 0.933 W/kg
PCS mode (Part 24) - Head: 1.250 W/kg; Body-worn: 0.691 W/kg

FCC Radiofrequency Emission

This phone meets the FCC Radiofrequency Emission Guidelines. FCC ID number: AEZSCP-55H. More information on the phone's SAR can be found from the following FCC Website: <http://www.fcc.gov/oet/fccid>.

Manufacturer's Warranty

Customer Limited Warranty

SPRINT SPECTRUM, L.P., (Sprint) offers you a limited warranty that the enclosed subscriber unit (Product), including accessories in the product package, will be free from defects in material or workmanship as follows:

SUBSCRIBER UNIT:

A. SPRINT ONE (1) YEAR LIMITED WARRANTY: For a period of one (1) year from the date of purchase, Sprint will, at its option, either pay the parts and labor charges to any authorized PCS® Phone service facility to repair or replace a defective product (with new or rebuilt parts/replacements). After this one (1) year period, you must pay all parts, shipping and labor charges.

B. REPAIRS: For a period equal to the remainder of the original limited warranty period on an original Product or for the 180 days after the date of repair/replacement, whichever is longer, Sprint will repair or replace (with new or rebuilt replacement) defective parts or Product used in the repair or replacement of the original Product under this Limited Warranty.

Proof of purchase in the form of a bill of sale or receipted invoice warranty repair document which is evidence that the Product is within the warranty period must be presented to obtain warranty service. This limited warranty is not transferable to any third party, including but not limited to any subsequent purchaser or owner of the Products.

Transfer or resale of a Product will automatically terminate warranty coverage with respect to the Products.

This limited warranty does not cover and is void with respect to the following: (i) Products which have been improperly installed, repaired, maintained or modified (including the antenna); (ii) Products which have been subjected to misuse (including Products used in conjunction with hardware electrically or mechanically incompatible or used with accessories not supplied by Sprint), abuse, accident, physical damage, abnormal operation, improper handling and storage, neglect, exposure to fire, water or excessive moisture or dampness or extreme changes in climate or temperature, (iii) Products operated outside published maximum ratings; (iv) cosmetic damage; (v) Products on which warranty stickers or Product serial numbers have been removed, altered, or rendered illegible; (vi) customer instruction; (vii) cost of installation, removal or reinstallation; (viii) signal reception problems (unless caused by defect in material and workmanship); (ix) damage the result of fire, flood, acts of God or other acts which are not the fault of Sprint and which the Product is not specified to tolerate, including damage caused by mishandling and blown fuses; (x) consumables (such as fuses); or (xi) any Products which have been opened, repaired, modified or altered by anyone other than Sprint or a Sprint authorized service center.

This warranty does not cover customer education, instruction, installation, set up adjustments, or signal reception problems.

This warranty is valid only in the United States.

USE WITH ACCESSORIES NOT SUPPLIED BY SPRINT OR OTHERWISE NOT EXPRESSLY AUTHORIZED BY SPRINT MAY BE DANGEROUS.

SPRINT SPECIFICALLY DISCLAIMS LIABILITY, AND SHALL HAVE NO OBLIGATION TO PROVIDE TO BUYER ANY OTHER REMEDY, FOR ANY AND ALL DIRECT, INDIRECT, SPECIAL, GENERAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO LOSS OF PROFITS, LOST SALES, LOSS OF USE OF THE PRODUCT, OR ANTICIPATED PROFITS ARISING OUT OF USE OF OR INABILITY TO USE ANY PRODUCT (FOR EXAMPLE, WASTED AIRTIME CHARGES DUE TO THE MALFUNCTION OF A PRODUCT), DAMAGE DUE TO IMPROPER OPERATION OR MAINTENANCE, INSTALLATION, CONNECTION TO IMPROPER VOLTAGE SUPPLY, OR ATTEMPTED REPAIR OF THE PRODUCT BY ANYONE OTHER THAN A FACILITY AUTHORIZED BY SPRINT. THIS WARRANTY DOES NOT COVER PRODUCTS SOLD AS IS OR WITH ALL FAULTS, OR CONSUMABLES, (SUCH AS FUSES). THIS WARRANTY DOES NOT APPLY WHEN THE MALFUNCTION RESULTS FROM USE OF THE PRODUCT IN CONJUNCTION WITH ACCESSORIES, PRODUCTS OR ANCILLARY OR PERIPHERAL EQUIPMENT NOT SUPPLIED BY OR EXPRESSLY AUTHORIZED FOR USE BY SPRINT, AND WHERE IT IS DETERMINED BY SPRINT THAT THERE IS NO FAULT WITH THE PRODUCT ITSELF.

REPAIR OR REPLACEMENT, AS PROVIDED UNDER THE WARRANTY, IS YOUR SOLE AND EXCLUSIVE REMEDY FOR BREACH OF THE LIMITED WARRANTY. TO THE EXTENT PERMITTED BY APPLICABLE LAW,

SPRINT MAKES NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, WITH RESPECT TO THE PRODUCTS FOR A PARTICULAR PURPOSE OR AGAINST INFRINGEMENT WITHIN THE TIME PERIOD SPECIFIED IN THE LIMITED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ON THIS PRODUCT IS LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY.

Some States do not allow the exclusion or limitation of incidental or consequential damages, or allow limitations on how long an implied warranty last, so the above limitations or exclusions may not apply to you.

This limited warranty gives you specific legal rights, and you may have other rights which vary from State to State.
